53 HIGHEST AWARDS IN EUROPE AND AMERICA

J. Pierpont Morgan has been called to the stand to answer a "few questions" before the "money trust" investigating committee. Samuel Untermyer previously asserted that Morgan's company controls 18 of the biggest financial institutions in New York, and, through Drexel, four in Philadelphia, with total resources amounting to \$26,000,000,000.

MOTOR TRUCKS ARE CHEAPEST IN THE END

Even Man with One-Horse Delivery Outfit Can Save Money and Get Better Service by Buying Auto Vehicle

Every man who makes his living solely out of hauling merchandise for other people, whether by the load, job, distance, time, or under any other arrangement, can make more money with a motor truck than with horses and wagons. This is true even if his present business is limited to the use of a single one-horse rig which he drives himself, but it is conditional upon the avoidance of certain kinds of short-haul work with frequent stops and long delays, which the horse and wagon can do more economically than any machine that has yet been developed.

Furthermore, any expressman or road haulage contractor with a clean business record, an established trade, and sufficient ambition and ability, can raise the money to purchase a motor truck even without all the necessary cash in hand, if he will give due consideration to certain essentials that will be clearly brought out later in this article.

Big Profits for the Owner-Driver

It is a common fallacy to suppose that the motor wagon can be employed economically only in large installations. There are tens of thousands of small professional haulage companies and individuals scattered all over the country who can economically and profitably make use of one, two or three machines. In any number of cases the small proprietor can operate and drive his own machine with great profit. And it often happens that a motor wagon service of such small proportions will show even a greater profit, relatively speaking, than mass operation of tens or even hundreds of machines on the largest and most up-to-date scale.

Ten Reasons.

For the man who already has a small-established haulage business there are at least ten reasons why he should employ a motor truck: (1) Lower operating costs for the amount of work done. (2) Greater radius of territory that can be covered. (3) Quicker and more frequent deliveries, with consequent greater satisfaction to customers. (4) Ability to use the delivery equipment after ordinary hours on rush work without impairment for the next day's business. (5) Independence of railroad and outside carriers for long-distance shipments within a radius of 100 miles or more, with consequent greater profits from such work. (6) Freedom from the limitations of horse service, due to sickness or other physical disability, inclement weather in winter or summer, etc. (7) Indifference to hilly roads. (8) Avoidance of the necessity of establishing branch depots. (9) Advertisement. (10) Increase of the asset value of the business by permitting expansion and thus making it comparatively easy to borrow capital for additional rolling stock and other equipment.

The von Hamm-Young Co. has now in its salesroom one of the Packard two-ton trucks which it will be glad to demonstrate to people who are interested in trucks.

"CASCARETS" FOR A SICK, SOUR STOMACH

Gently but thoroughly cleanse and regulate your Stomach, Liver and Bowels while you sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleaning, too—advertisement.

GOV. OSBORN TALKS OF WOMAN'S DRESS

In Pulpit He Says Rich Ought to Wear Black So as Not to Drive Poor from Church

CHICAGO, Dec. 8.—Gov. Chase S. Osborn of Michigan, a newspaper man, preached a sermon here today from the pulpit of his friend, the Rev. Myron E. Adams of the First Baptist Church. The Governor took for his theme a plea for less ostentation on the part of women church members. He suggested a uniform church dress that would be plain and inexpensive and would not frighten away poor women who now stayed away from church because they could not compete in dress with prosperous women.

"I've often wished that Protestant churches in this country would follow the habit I have observed in Spain and in South America among Catholic churchgoers," he said. "There it is the custom for women to dress in plain black for church. I wish that

Packard "38" is Here It Compels Attention

The latest advance in motor car engineering is being shown in Honolulu. Exclusive features of far reaching import are embodied in the smaller six-cylinder Packard

With a positive electric self-starter, left drive reaches for the first time its adequate development. A new device—distinctively Packard—places all controls on the steering column. This means complete mastery of the car from the driver's seat

Electric lighting and a separate high tension magneto ignition

The sum of these improvements is to be found only in the Packard "38." In the essentials of convenience and comfort, this car is the criterion of the present and an assured standard for the next two years

The Packard "38" Line

Touring Car, five passengers.....	\$4150	Landulet.....	\$5300
Phaeton, five passengers.....	4150	Imperial Limousine.....	5400
Phaeton, four passengers.....	4150	Brougham.....	5200
Runabout.....	4050	Coupe.....	4500
Limousine.....	5200	Imperial Coupe.....	4900

The Sturdy STUTZ

The car that made good in a day

To recite the achievements of the STUTZ would be to insult your intelligence. Suffice it to say that the STUTZ has been the most consistent performing car during its lifetime in the world. The STUTZ rear construction has become famous, and is being used by other manufacturers today, who have found it to be the best. When a maker can point to an unbroken record of consistent performances such as the STUTZ it means everything. Look the car over, and be convinced. It has everything—Sturdiness, Speed, Easy Control, Consistency, and Graceful Lines.
